

Pearl GTL project in Qatar

- A Qatar Shell GTL Ltd. project ongoing in 2008
- Onshore Gas-To-Liquids (GTL) plant
- 400 km of single core MV cables and 3 600 km of LV power and control cables
- Cables manufactured by Nexans in Korea, France and Turkey, with guaranteed delivery time
- Fire-retardant cables complying with IEC standards
- Installation within very large and busy industrial settings, with Qatar's climate constraints
