Application

LANactive Industry Starter Kits are designed to demonstrate Nexans managed Industrial Ethernet switches capabilities by professional way. It can be used during the technical evaluation, meetings, exhibitions or provided to the customers for further testing.

The Starter Kit includes one managed Industrial Ethernet switch from Nexans iGigaSwitch family with PoE+ and I/O functionality as well as several accessories: industrial power supply, SFP transceivers, memory card and serial cable. All components are fully functional and ready to operate.

The Starter Kit case has the slots for other optional cabling components from LANactive Industry solution - DIN-rail mounted universal iConnectBox patch panel, industrial RJ45 plug for field termination, copper and fibre patch cords.

Starter Kit installation, configuration and documents

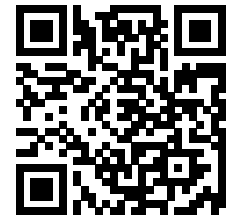

For further details about starter kits components installation, connection, configuration and testing, as well as for the documentation and the software, please refer to LANactive Starter Kit dedicated web-page by scanning QR code located on the case cover or using the following link: www.nexans.com/LANactiveStarterKit

Client/Server Licence

Typical LANactive Industry Starter Kit products components (see the next page for available variants)

- 1x 88646260 Nexans Starter Kit Case LANactive Industry
- 1x Industrial Ethernet switch from iGigaSwitch 16xx E+ or iGigaSwitch 10xx E+ families (see the next page for available variants and options)
- 1x 88300692 Nexans SD Memory Card for iGigaSwitch with MAC-Address
- 2x 88646015 Nexans SFP 1000 Transceiver GI(LC)E, Gbps, MM, 850nm, 550m
- 2x 88646016 Nexans SFP 1000 Transceiver SM(LC)E L10, Gbps, SM, 1310nm, 10km
- 1x 88645960 Nexans iPowerSupply 115-230VAC/48VDC 100W
- 1x 88646169 Nexans RJ45 serial cable for Industrial Switch
- 1x 5242633 ESD box for accessories: SFPs, adapters, memory card etc.
- 1x 88646029 FO adaption kit LC-DX to ST, 0,5m, incl. 2xST adaptors
- 1x 88645932 SC-DX/ST GI (multimode) adaptor for SC to ST adaptor

LANactive Industry solution

Nexans Industrial Ethernet switches are the core of LANactive Industry solution designed to build redundant and reliable network in a harsh environment of many mission critical applications:

- managed Industrial Ethernet switches and accessories
- wide copper and fibre cabling offer including their industrial variants
- configuration and management software for the switches
- support services and trainings

Specially designed for harsh environments

PoE/PoE+

Compact design

Interoperability

Redundancy

Easy Maintenance

Security, Safety & Robustness

High availability
